<u>Group 3 - Farming Techniques Knowledge Sharing System</u>

Script for Prompts We Need Recorded in the Local Language.

WelcomeMenu.sln
Hello, Welcome to the Farming Information System.
Select 1 for sharing information or 2 for listening to information.

SharingChoice.sln
You would like to share some farming knowledge. Please select a crop type to share about.

ListenChoice.sln
You would like to listen to some farming knowledge. Please select a crop type to hear about.

CropTypeMenu.sln
Select 1 for Maize, Select 2 for Cow Peas, Select 3 for Shea nuts.

ListenSubMenuA.sln
Which farming technique would you like to hear about? Press one for Irrigation, press two for soil management.

General_Record_Message.sln
Please record your message about the crop technique you wish to share.

ReturntoMain.sln
Thank you. You will now return to the main menu.

Instructions
Record all of the text under each filename listed above in bold into the local language. Save each audio file with the file name listed as above - keeping the english file name.

Replace all sln files in the /var/lib/asterisk/sounds/custom folder with the new recordings. When you call the system next, it will play the audio files recorded in the local language.

This system is currently designed to work with one language at a time - whatever language the audio prompts are recorded in.
